

## ArtiLink600

### Practical Diagnostics

The ArtiLink 600 expands on the ArtiLink 500's capabilities, becoming an even more versatile, yet affordable scan tool. The scan tool is capable of ABS and SRS system diagnostics on 42 car brands, offers a larger multi-lingual menu, built-in speakers, and a 3.5" color LCD screen. Data reports can even be printed directly from a computer. This tool gives every garage robust capabilities, whether it's a dealership's garage or a home garage.

### Features

- ABS & SRS system diagnostics for 42 car brands worldwide: This includes access to ECU Information; Read & Clear DTCs; Live Data Stream; and Active Tests.
