Potential

TOPDON's PulseQ is the first of TOPDON's EV charging stations. Offering versatility, adaptability, and smart technology to users, it makes EV charging widely accessible. The PulseQ is compatible with most China charging standard electric vehicles because the IEC62196-2 Type 2 (GB/T20234.2) eliminates most brand barriers to EV owners. The compact design and multiple mounting options save space in garages and can even be mounted outside to take up no interior space. The charger can be accessed and adjusted through an app to set charging sessions during off-hours and to monitor the charging process.

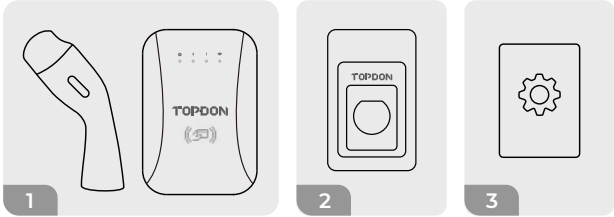

Specs:

Phase Number: 3-Phase	Model: PulseQ AC Home 22KW PulseQ AC Home 11KW PulseQ AC Home 7KW	AC Power Input /Output Voltage: 400VAC, 50 / 60Hz 230VAC, 50 / 60Hz	AC Power Input /Output Current: 32/16A 32A
Connector Type: IEC 62196-2 Type 2 (GB/T20234.2)		Charging Cable Length: 5M (7.5m cable is optional)	
Dimension: 310 x 215x95 mm		Weight: 7~8KG	
Storage Temp: -40 ~ 75℃		Operating Temp: -30 ~ 55℃	

Features:

- Safety And Durable, meet the requirements of CE, LVD, RED, RoHS Certification, and REACH testing.
- Three Charging Modes, RFID Reader, Plug and Play, App Control
- Build-In Multi-Protections and with IP65 Rating
- Compact Design to Save Space
- Easy Installation with Multiple Mounting Options
- Compatible With Most China charging standard AC Electric Vehicles

What's in the Box:

- 1 PulseQ Charger (Including charging gun and Wall Mount Accessories)
- 2 Cable Holder Socket
- 3 User Manual (Include Charging Card)
