Question

What should I do if a communication error occurs?

Features

Answer

Follow the steps below to identify the problem:

- 1)** Check if the ignition is ON.
- 2)** Check if the TopScan Pro is securely plugged into the vehicle's OBD-II port.
- 3)** Turn the ignition off. Then, turn it on after 10 seconds and continue the operation.
- 4)** Check if the vehicle's control module is defective.
